TURNER SPORTS TO PREMIERE NEW TRACK 'PLAY BALL' AS PART OF 2014 MLB ON TBS POSTSEASON CAMPAIGN

September 24, 2014, New York, NY - Columbia Records proudly announces the release of 'Rock or Bust,' the highly anticipated new studio album from AC/DC, available [December 2, 2014](#). 'Rock or Bust' is the band's first studio album in six years and features 11 new tracks. 'Rock or Bust' follows the immensely successful 'Black Ice' album, which debuted at #1 in 31 countries upon its release in 2008 and has gone on to sell nearly 8 million copies worldwide. 'Rock or Bust' was recorded in Spring 2014 at Warehouse Studio in Vancouver, BC and finds AC/DC once again working with producer Brendan O'Brien and mixer Mike Fraser.

Starting [September 27](#), Turner Sports will provide fans a sneak peek of the new track 'Play Ball' as part of the 2014 Major League Baseball Postseason campaign. The content will run for several weeks across TBS, the exclusive home to this year's American League Postseason coverage, as well as leading media brands within the Turner portfolio.

"Rock or Bust" is the first AC/DC album in the band's 41 year history without founding member Malcolm Young on the recordings. Earlier this year AC/DC released a statement explaining that due to illness, Malcolm would be taking a break from the band. Unfortunately, due to the nature of Malcolm's condition, he will not be returning to the band. AC/DC will undertake a world tour in support of 'Rock or Bust' in 2015. Stevie Young, nephew of founding members Angus and Malcolm Young, plays rhythm guitar on 'Rock or Bust' and will accompany the band on tour.
